Brault’s Meat Market & Slaughterhouse

Over 100 years ago, Arsené Brault began a meat business in Troy. Today, three generations later, Brault’s Meat Market & Slaughterhouse is a thriving family business and has acquired a community reputation for quality meats and dependable service.

Tony Brault, Corey Brault, and Kathy Couture, along with a staff of up to eight people, provides a full range of services including butchering, custom cutting, curing and smoking meats, and preparing specialty sausages and beef jerky. Brault’s modern butchering and retail facility is over 8,500 square feet and allows them to cure and smoke hams, veal, turkey, fish, and jerky.

There is a state inspector on the premises.

Brault’s Meat Market sells an impressive variety of fresh meats, most of which are native grazed and grown. You can buy or order beef and pork, from multigrain half, or by the pound, cut, wrapped, and frozen. You can rent a pig roaster for special events & purchase a pig.

Why not take advantage of Brault’s pickup service? They will come to your home or farm and pick up your animals (beef, pigs, sheep, etc.), do the butchering, cutting, wrapping, and freezing, and do it quickly and affordably.

Brault’s Meat Market has become a legend in these parts. Come on out and experience it yourself.

The Essex House & Tavern
Welcome to the Essex House & Tavern, where the lake, river and friendly neighbors meet! Entering our 5th year in business, local owners David & Melinda Lamoureux have resurrected the 1894-era building (located at the mouth of the West River) to its former glory.

The atmosphere created is one that reflects the history of the Essex House by keeping the original wood supports and having a modernized, antique aesthetic. Each of the hotel rooms have been renovated with new amenities such as lighted makeup mirrors, flat screen TVs, and providing the most comfortable Sleep Number bed. While retaining the building's quaint and historic style.

Guests and locals alike love dining for lunch and dinner at the renewed tavern with its vintage industrial look. The recently reformed menu offers items such as the salmon dip appetizer. Please be sure to taste those tasts buds! The tavern also offers night draft beers on tap (if which many are Vermont brewed), and a full bar featuring specialty cocktails like their Hot & Dirty Martini! If you care for a quieter dining experience, ask to be seated in the banquet/function room. Along with offering service for rehearsal dinners, birthday parties, and other celebratory events, the banquet/function room is elegant in nature and retains the dance floor from years ago. Be sure to contact them concerning their banquet space.

Let us customize your next event! The newly constructed pavilion on the river's edge directly complements the tavern decor with exposed rough timbers and provides an alternative location for weddings, reunions, and other large gatherings.

Labour of Love Landscaping & Nursery
With over 800 varieties of perennials, Labour of Love Landscaping & Nursery is a full-service design, build, and maintain landscaping firm. It is also both a retail and wholesale nursery with a wide choice of flowering plants available as potted sales stock.

Owner Kate Butler has been in business for almost 40 years, and with very few exceptions (primarily for special orders), she propagates what she sells. Her plants are grown, multiplied, and increased by seeds, cuttings, and divisions. The plants are guaranteed to be Zone 3 hardy and are large, healthy, and well-grown. Labour of Love is known for its unusual perennials that do well in the Northeast Kingdom climate and are not found elsewhere locally. Ms. Butler is particularly interested in pushing the envelope — growing things that are reputed NOT to grow this far north. She grows over 150 named varieties of Sempervivum, over 150 named varieties of Hemerocallis (daylily), as well as many “instant gratification” sizes of iris, daylilies, and much more. Instant gratification means just that — REALLY big sizes that appear (when planted at your home or business) to have been in place for many years.

Ms. Butler has been an avid gardener since childhood, and it was a natural segue from vegetables when her children were growing up to flowers. Folks are invited to visit the magnificent gardens surrounding her 1800s Greek Revival home with its antiques shop, handweaving studio and picnic tables anytime during daylight hours. Stop by and visit when you have the chance.

United Christian Academy
In 1994, pastors from 18 area churches met to discuss options for creating a Christian educational option in the Northeast Kingdom.

The following year United Christian Academy opened its doors to the community offering a uniquely Protestant and Roman Catholic collaboration. For the past 26 years, UCA has focused on a well-rounded education, with a strong K-12 curriculum, and a commitment to community service. Students at UCA have a positive impact on the communities in which they live, are sought after for employment by area business owners, and become leaders in their fields of expertise.

Head of School, Kimberlee Strepka, says UCA’s student-to-teacher ratio allows for personalized instruction for each student whether in person or through the school’s remote learning option. The teachers truly love their students, helping them to succeed in school and beyond.

UCA’s family atmosphere provides students and parents with a voice that is heard and valued. Great importance is placed on school-to-family communication so that each child’s needs are known and addressed. UCA is here for K-12 students who want personal attention from their teachers, personalized instruction, a traditional grading system, and a well-rounded, faith-based education.
