A Place Called Things

The big, blue building on Crystal Lake, next to the current town clerk's office, once housed the Hood Creamery, a cheese factory, and Miller's Plumbing and Sheet Metal. How fitting that an antique shop would be its next resident?

Owner Mike Szczesny has been buying and selling collectibles and antiques for over 30 years in Vermont and Massachusetts, and now he has brought his aesthetic talents to Barton Village.

In addition to antiques and collectibles, Mr. Szczesny buys and sells used furniture — anything old — and will pay cash for contents of homes, cellars, attics, and outbuildings. He offers free appraisals and tons of storage space, and his wholesale lots sell for low prices.

Currently, Mr. Szczesny is looking to buy oak, mahogany, and walnut furniture, especially marble-top tables; glass, china, porcelain, and sterling items; lamps, clocks, toys, and banks; and any unusual collectibles.

Out-of-town dealers need not worry about finding the place. It is conveniently located on Route 5, off exit 25 of I-91. Barton is home to several other antique dealers, so it is a trip worth making for any collector. Bring what you'd like to sell, and take home that piece you've been looking for!

Ace Tree Removal

Ace Tree Removal is owned and operated by Aaron Chapdelaine in Brownington. He has more than 15 years of experience with "danger tree" removal, working for utilities around Vermont.

Most of his experience comes from working under the Central Vermont Public Service forestry program. That work was specific to removing big, dangerous trees that are mainly on high voltage lines and inaccessible with equipment.

Mr. Chapdelaine has climbed thousands of trees, perfecting the art of taking them down. Now, he works for himself, removing dangerous, dead, or dying trees. He also works at perfecting his methods every day to provide safe, predictable, controlled methods for doing this work.

His skills include climbing, trimming, pruning, removing dangerous trees — as well as any others you may want removed — rigging (lowering or raising limbs and wood with ropes, blocks, and slings), bracing and cabling, fruit tree pruning, storm damage work and cleanup, and chipping. He also does small lot clearing, new line right-of-ways, and bucket work.

Mr. Chapdelaine prides himself on professionalism, communication, customer satisfaction, and a clean site when he leaves.

All About the Cake

Cindy Poginy is in a delicious business. She bakes cakes and cupcakes, has molds for melting chocolate, as well as cake decorating supplies, and also sells homemade fudge and truffles. She teaches cake decorating classes for both kids and adults.

As a child, Ms. Poginy sat at the counter watching her mother decorate cakes, and the passion stuck with her. Now, she has more than 31 years in the business of baking and decorating, as well as experience in teaching. There's no other business in the area that fills the need on this scale. Cindy has been here in Newport for four years now and has recently added a second store in Lyndonville.

Ms. Poginy produces lovely cakes and cupcakes that are scrumptious, as well. She's friendly, helpful, and has fair pricing, and hopes that anyone who wants a gorgeous cake, or wants to know how to decorate one, will look her up.

Stop by and enjoy the delectables, and learn how to have fun making them yourself. Ms. Poginy offers top quality, tasty goods.

She carries the largest selection of Wilton Cake product, CK products and Bakery Craft supplies in the area. Also, she has a large selection of piñatas, and she rents cake character pans.

Animal Kingdom

"The busiest grooming salon in town."

Animal Kingdom has been professionally grooming dogs and cats since 1994, and has grown from an owner-operated business to an establishment with two employees, Shonna and Mandi, and over 10,000 four-legged clients. Animal Kingdom is AKC salon certified and owner Michele Judd is also a safety certified groomer.

The grooming is done by Ms. Judd, who received her professional grooming training at Nash Academy of Animal Arts in Lexington, Kentucky.

Ms. Judd's philosophy is to provide owners with a foundation for caring for the health and grooming of their pets. Customers request the haircut they desire and then Ms. Judd works to make it easy to maintain, and comfortable for the animal. Animals are washed twice, given a conditioning treatment, fluff dried, thoroughly brushed, ears cleaned, and nails trimmed and filed. Animal Kingdom is one of the few places where an animal may be brought for nail trimming without an appointment! After the pet is groomed, the owner can shop for dog and cat supplies in the store's retail section, which stocks specialty collars, leashes, toys, treats, training aids, safety vests, sweaters, and much, much more. Animal Kingdom even has a \$15 "quicky bath" available!

Snickers Self-Service Pet Wash is a fully equipped area where customers can bathe and dry their own pets using grooming-provided supplies and equipment. Snickers even cleans up the mess!

Now powered by a small wind turbine, Animal Kingdom has gone green! Connected directly to the electrical grid, this turbine provides power not only to the business, but actually produces more electricity than Animal Kingdom uses. This is just one way Animal Kingdom is striving to reduce its carbon footprint.

Both Ms. Judd and Shonna are certified in application of temporary color and accessories to help jazz up your pet's appearance. Connect with them on Facebook — Derby Animal Kingdom — where you will frequently meet the "cutie of the day."

Animal Kingdom appreciates your patronage and thanks you for making the business successful.

Antiques & Emporium

Vermont Certified Precious Metals Dealer

Antiques & Emporium, on the South Wheelock Road in Lyndonville, is always buying and selling antiques, collectibles, quality used furniture, and gold and silver. It's been in business for 16 years, and owners Paul and Lucy Steele say they will pay the highest prices for your valuables.

Mr. Steele started dealing part-time and selling at flea markets back in the 1970s. A love of antiques led him to consign at antique group shops throughout Vermont and New Hampshire. The next step involved auctions, and for six years he ran an auction service. Eventually, he concluded that he'd like to run his own antique shop, and opened Antiques & Emporium in Lyndonville in a rented facility in 2000. The business has since moved to the former Corner Medical building, originally the Lyndon Corner School, built in 1872. It was damaged by fire in 2002, but Mr. Steele has completely restored it to house his thriving business. The new location was ready for customers in 2005.

Antiques & Emporium is a group shop with motivated dealers, a huge variety, and low prices. Stop by and check out their wares; you're sure to run across a treasure or two, or simply find a practical and much-needed item at a fair price.

Brookside Hardware

Since taking over as owners of Brookside Hardware and Lumber in Westfield, Andy and Beverly Haase have more than doubled its total inventory. They have vastly expanded the fastener, lawn and garden, and feed departments, and added the Valspar line of paint. They also have a large selection of building materials, including molding and trim, as well as flooring, roofing, and siding by special order.

In fact, the business should be called "Save a Trip," since it has a bit of everything and is steadily growing, says the Haase family.

Homeowners, contractors, farmers, and handymen can find what they need at Brookside Hardware, which has everything from pool supplies to maple sugaring equipment. They carry farm supplies and animal feed, expanded dog and cat food lines of Taste of the Wild and ProForm, household cleaning products, and plumbing and electrical wares.

They also strive to be a customer friendly business.

"We listen to our customers," they say. "If you need us to stock something especially for you, we'll bring it in. We want our customers to feel like it's their store."

Andy Haase has been in the lumber and hardware business for over 20 years, so he knows the business. At Brookside, he buys from the same national distributors as the often bigger competition, enabling the business' products to be competitively priced. And the convenient location can save many people a long and unnecessary trip elsewhere.

At Brookside Hardware, you'll find great prices, great selection, special orders, and delivery and service with a smile!

Community Hyperbaric

Community Hyperbaric has treatment centers in East Hardwick and Montpelier. Under the direction of Dr. Grace Johnstone, Community Hyperbaric provides mild hyperbaric oxygen therapy (HBOT) to people dealing with chronic inflammation, trauma, non-healing wounds and resistant infections. HBOT is widely used in Europe, but relatively few facilities exist in the U.S., and most of them are cost prohibitive.

Mild HBOT uses a combination of concentrated oxygen and increased pressure to perfuse the brain and body tissues with oxygen. Concentrated oxygen is a natural antibiotic, a powerful anti-inflammatory, boosts immune function, and speeds tissue healing. Hence, it is used to address many chronic inflammatory diseases.

HBOT oxygenates the brain following stroke or traumatic brain injury, allowing brain function to improve even years after the initial injury. Research shows that it can be helpful in dealing with Multiple Sclerosis, Parkinson's, dementia, autism, and the brain fog that comes with fibromyalgia and chemotherapy.

Dr. Johnstone discovered mild HBOT through her experience with neurological Lyme disease. The Lyme spirochete dies in the presence of high levels of oxygen. "HBOT has allowed me to resume my work and other activities that I love following incapacitating Lyme disease and related meningitis and radiculoneuritis," Dr. Johnstone said. "It decreases the joint and muscle pain of Lyme, clears brain fog, and vastly increased my level of functioning. I have my life back."

HBOT offers an excellent approach for addressing persistent inflammatory issues such as rheumatoid diseases, Crohn's disease, and arthritis. It boosts the immune system and speeds tissue healing, making it an excellent pre- and post-surgical treatment for patients in higher risk groups, such as those with diabetes. Research demonstrates that it is one of the only effective treatments for radiation damage incurred from cancer treatment.

Treatment is not generally covered by insurance, but is as affordable as Community HBOT can make it. Part of the mission is to make mild HBOT accessible, so community members dealing with chronic health issues regain health and well-being.

E.M. Brown & Son, Inc.

Art LaPlante and Mark Royer bought E.M. Brown and Son, Inc. in March 2007 because they loved the nostalgic character and potential of the historic building and business itself, and they believed in the potential of the business because of the friendly folks in the great community of Barton and the surrounding towns. They have not been disappointed, and in fact, the business seems to be expanding all the time with a full-service home center selling everything needed to build or remodel a home. They have also added Carhartt work clothing and footwear, giftware, and King Arthur Flour baking supplies. E.M. Brown also sells Vermont hunting and fishing licenses, and is a Vermont big game reporting station.

Poulin Grain and Green Mountain Organic Feed have been added to the livestock feed line, to complement the Blue Seal Feeds E.M. Brown has offered for nearly 50 years. The store also has other agriculture and lawn and garden supplies including bulk seeds. They are a propane fill station so they can help you keep that heater going in the cold or keep your grill cooking in the summer. The company employs nine people including the owners, who hope everyone will stop in and say hi. The sales staff is experienced and professional and sets the standard for quality service. E.M. Farrant's Flower Shop & Greenhouses, Inc.

Established by Tom Farrant in 1869, Farrant's Greenhouses, Inc. has the distinction of being the oldest business in the Newport area. In 1927 Harold and Elsie Jenks purchased the greenhouses, providing a seasonal fare from annual garden plants and vegetables to indoor houseplants and fresh-cut flowers and arrangements.

A fond memory from Main Street.

In 1966 Jim and Betty (Jenks) McQuillen and Peter and Lois Jenks added a flower shop in the center of Main Street, where Jim and Betty had the shop at its original location for 47 years, managed by their daughter, Kathy, who has been there over 40 years. Ironically, Tom Farrant's daughter Susan had operated a flower stand in this same location about 100 years ago! The Main Street shop was there until February 2013, when the demolition of the block was scheduled.

Farrant's is continuing to operate their flower shop and greenhouse at the original Farrant Street location (overlooking beautiful Lake Memphremagog from Farrants Point), where they continue to welcome customers with a personal touch, whether for a special family celebration such as a wedding or a more somber occasion as the loss of a loved one. They are there for your most intimate floral needs.

"Our dear husband and father, Jim, passed on in October of 2015, but his spirit lives on."

Betty and Kathy McQuillen are grateful for the loyal patronage of their many customers and say, "We wish to thank you for being part of our memorable history!" Major credit cards are accepted.

Gosselin Water Wells

Your local water wells company

Gosselin Water Wells of Derby is in the business of bringing people nature's most precious gift — cool, clear, healthy water. The company offers water well drilling, geothermal wells, hydrofracking (which can improve dry or low-yield wells), water pump sales and service, water conditioning sales and service, 24-hour pump service, and a well inspection camera.

Dan Gosselin is vice president, and the company employs ten people. Gosselin Water Wells has been in business for more than 30 years and has a solid reputation. It has been a family-operated business since 1980 and has branches in Derby and Sheldon Junction, and covers most of northern Vermont and New Hampshire. Having drilled between 150 to 250 wells a year, the company has accumulated a lot of experience and knowledge on what it takes to supply customers with a system that meets their needs. Under normal conditions, a well and pump system can be installed in one day. If you are interested, a sales representative will meet with a prospective customer on site for no charge to inspect the property and advise on the well location and estimated depths. The location of the well is important because there are state rules and regulations to be met — the well must be at a distance from possible contaminants such as a septic system.

Green Mountain Trailers sells trailers and equipment. They also repair trailers and sell trailer parts and accessories.

Lyndon Burkholder is the owner and only employee. Green Mountain Trailer Sales began in July of 2012, when Mr. Burkholder and his brother purchased their first load of trailers. It began as a sideline business to the family dairy farm in Hyde Park. Initially, selling trailers worked fine as a supplement to their work on the farm; however, as time went on it became obvious that "setting up shop" along a heavily traveled road in a commercial building was necessary, not only so customers could be served better, but also so that potential business growth could be realized. Last April, the business opened in its new location, right beside the new Route 100 bypass in Morrisville.

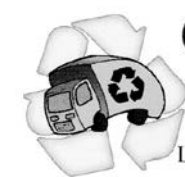

Products he sells include Belmont steel-framed trailers, ranging from small utility trailers up to 24,000 pound GVW equipment trailers; dump trailers in multiple sizes; Integrity enclosed cargo trailers; and Alumina aluminum trailers. He sells many sizes, from small trailers one can pull with a Mini Cooper, to tilt car haulers. He also sells aluminum truck flatbeds in sizes ranging from replacement beds for single rear wheel pickups, up to 8 foot by 16 foot for medium duty trucks. Mr. Burkholder tries to maintain a broad inventory of trailer repair parts and accessories: spare tires, replacement tires, cargo straps, binder chain, load binders, ball mounts, pintle plates, brake assemblies, brake repair parts, springs, U-bolts, shackles, jacks, lights, wiring accessories, E-track cargo control system, hitches, including gooseneck and fifth wheel.

Repair work performed here is varied. Whether it's wheel bearings, brakes, suspension, deck boards, or lighting issues, Mr. Burkholder will be glad to fix whatever ails your trailer.

At Green Mountain Trailers, the goal is to provide excellent quality products and services at fair prices. Service and product support are priorities.

Hardwick Chiropractic

Hardwick Chiropractic, Inc., has provided holistic health care for 23 years. Doctors Grace Johnstone, Rick Eschholz, and Allison Bogan have a team approach to helping patients improve their health and well-being. Patients at Hardwick Chiropractic find that both acute and longstanding chronic conditions improve, or resolve, with this low force chiropractic and osteopathic approach.

The doctors at Hardwick Chiropractic work with the spine, all of the joints of the body, and the tendons, ligaments, muscles and nerves that relate to them. They address the sympathetic and parasympathetic nervous systems, and proprioceptive and postural reflexes so that brain patterning can change. This can be very important in changing how the body deals with stress, as well as with sports and musculoskeletal issues.

Recently, the doctors have been participating in additional training in visceral (organ) and neural (nerve) manipulation, which allows them to work directly with the organs of the body and their innervation. Just this past year, for example, a number of patients have been able to avoid gallbladder surgery through these techniques.

One of the things they love is getting to know a patient and his or her family and caring for them as they grow and change over the years. Doctors Johnstone, Eschholz and Bogan have all trained in pregnancy related issues, including assistance in optimal positioning in utero so they often get to know patients very early in their development. Because their approach is so gentle, they have the pleasure of working with everyone, from infants to elderly patients and people with osteoporosis.

At Hardwick Chiropractic they enjoy helping people stay healthy, flexible, and well adjusted through all the various challenges that life brings.

Harris Integrative Health and Nutrition

Dr. Don E. Harris has spent 30 years providing quality chiropractic care and is also a clinical nutritionist. He treats most musculoskeletal problems with an emphasis on soft tissue. He has also treated serious diseases through nutrition.

Within the next few weeks, Dr. Harris will have an in-house massage therapist and also a physical therapist available to help clients.

Dr. Harris says he always puts the patient first. He will come in early, or stay late, to accommodate a patient's schedule and take the time needed to work on all aspects of that patient's health concerns. Most office visits last an hour.

He likes to get to know people, not just their illnesses. "By personally identifying with people and their health issues, I feel it leads to a more effective outcome and is always personally rewarding," he says.

He has always had an interest in health care but believes that integrating traditional health care with proven alternative methods leads to a healthier population and reduces the overall cost of health care.

Dr. Harris uses a variety of techniques to manipulate the spine, joints and soft tissue to achieve a high level of success. He also uses supplements as an important part of his practice and sells them at just over cost so they are more affordable.

He would like Harris Integrative Health and Nutrition to be known for the highest quality of care, compassion and commitment to patients. "I am truly committed to bringing an integrative approach to the Northeast Kingdom by utilizing all health care providers and empowering the area to expect the finest health care in Vermont," he says.

Hayes Ford

Hayes Ford is a family affair, and always has been since it started in 1971. Mark John Hayes II, known as John, started selling cars in 1958 in Franklin County, then headed to the Northeast Kingdom to buy the dealership in February 1971 and it has been going strong ever since. Mark Hayes III and his brother, Michael, took over the business from John and remained partners for 20 years until Michael left the area. Mark Hayes III is still on the premises and still selling vehicles. He served in the Navy and went to college before joining the business and has put 42 years into it at this point.

The East Main Street building where Hayes Ford is located was built in the 1940s during World War II. Hayes Ford is the fourth dealership on the grounds. Hayes has grown and bought out neighboring properties and has about 29 full-time and 5 part-time employees. They pride themselves on being an integrated part of the community and enjoy giving back. At the time of the bailouts, Ford did not accept a federal handout, and Mr. Hayes says that has made a big difference in the way the company has been seen. The Ford and Lincoln names are good as gold and the new vehicles have a solid American look. Hayes Ford is the only Lincoln dealership in eastern Vermont north of Route 2.

Hayes Ford can take care of all of your vehicle needs in one place. They have new and pre-owned vehicles, a service department, a body shop, diesel truck shop, parts department, rental department, and a reconditioning department. They also offer Certified Pre-owned vehicles that offer many benefits, including a 12 month/12,000 mile comprehensive warranty, 7 year/100,000 mile powertrain warranty, and 24-hour roadside assistance. Hayes Ford offers hometown values in an effort to build customers for life!

Kingdom Canine Center

Kingdom Canine Center opened its doors in January of 2008. They have met so many wonderful people and their pets and are so happy to be able to provide services to help care for the pets in the area. They are very thankful for your support!

In 2013 Deanna Baker bought her new property to add overnight boarding. She now offers grooming, boarding, training and agility classes. The agility classes will be held outside as soon as the snow melts! Agility is great fun for you and your pet. It can create a stronger bond and stimulate the dog's brain. It is good for the dog, both mentally and physically. Training classes are held all year-round and are limited to 3 dogs per class. It is all positive reinforcement. You can definitely teach old dogs new tricks! This is a great class to learn basic manners to have a happy and safe life with your new dog.

Overnight boarding is indoors and heated. Ms. Baker lives on the property, so your pet is never alone at night. Depending on your dog, he will get to play with other dogs while there, or if your dog is not so dog-friendly, the staff will play with him or cuddle him, whatever meets his needs.

Last but not least, they offer grooming services for all breeds of dogs and cats. They use all natural grooming products and gentle grooming methods. They will work with you to figure out what would be best for you and your pet.

If you haven't stopped in to see what's new at Majestic Trophy this year, you're missing out! Are you in need of trophies for a team that you coach? How about for a league — bowling or baseball maybe? Or perhaps medals or ribbons...We build our trophies in-house so we can make any size custom trophy to fit your needs. We can now easily add logos to custom plaques, etch into glass, engrave name tags and make custom wooden ornaments. Our latest addition to the product line are leather items — wallets, portfolios, can cozies, flasks, and picture frames. And, of course, these are all engravable!

Is there a wedding in the future? We can help! We have photo albums, cake knives and servers, glassware, photo frames and gifts for the bridesmaids and groomsmen. And naturally, these are all available with engraving!

The sister business to Majestic Trophy is The Embroidery Shop, located in the same building sharing the same space. Come in and watch the machines work! Help us design your job as you watch. We accept jobs big and small, from just one individual piece to hundreds. You'll also find an extensive line of clothing - men, women, children and infants. This also includes accessories such as hats and tote bags, workwear, and outerwear in many brand names. We sell a gorgeous collection of afghan/blankets that include animals, professions, sports, and wedding along with baby blankets.

Is there a new baby on the way? Check out our line of pewter gifts – first tooth and first curl boxes, birth certificate holder, brush and comb sets, banks and much more. Plus we have bibs, onesies and crib blankets, all available with embroidery.

If you're looking for a special, one-of-a-kind gift item come see us! We can personalize most anything including jewelry, tools, water bottles and more. Whatever your needs, you'll find it under one roof. It's definitely a one-stop shop, catering to individuals, businesses and organizations.

We are a locally owned and operated business, by Tammy and Moe Jacobs. Majestic Trophy and The Embroidery Shop were located on Main Street in Newport before moving to Derby 2-1/2 years ago. Tammy states, "Over the years, many of our customers have become friends. I enjoy working together with them to create a better end product that we are both happy with. NEK Vapor

NEK Vapor has the only stores of their kind in the area. The Lyndonville store opened in 2014 with the mission of providing the community with the best alternatives to smoking as well as unmatched quality, service and support. A second store opened in Newport in 2015.

Owner Dennis Steele says he was able to quit smoking, using his own products. Their 802 vapor line of custom blended e-liquids uses FDA approved food-grade flavorings and pharmaceutical grade nicotine to deliver “delicious flavor and a consistently pleasurable vapor experience.”

“The 802 vapor line includes flavors designed to delight any taste,” Mr. Steele says. “From fresh fruits to authentic tobacco flavors, from champagne and orange juice to freshly baked cookies — we offer dozens of flavors and are adding new creations all the time. You can also customize your experience by nicotine level.”

802 vapor e-liquids are made in the U.S. and meet standards for cleanliness and quality control. NEK Vapor sells them in distinctive blue glass bottles, which are more expensive but won't alter the flavor, unlike plastic bottles. Also, glass is airtight and easily recyclable and reusable.

“We feel that it's the best way to assure your liquid has the freshest, tastiest flavor from the first to last drop,” says NEK Vapor. The bottles come with a childproof cap, a glass dropper, and are sealed with a tamper resistant strip. Half-ounce and one-ounce bottles are regularly stocked, but larger sizes are available on special order. Stop by NEK Vapor in Lyndonville or Newport to sample some flavors at their tasting bar.

Northeast TV & Music Shop

Celebrating 36 years in business!

Northeast TV & Music Shop owners Michael and Connie Routhier work full time, with part-time help from Lois Jenks, to bring you the newest and best in satellite dishes, musical instruments and accessories, and sheet music. They are a DISH Network and satellite retailer. Mike does the satellite installations. They offer the latest promotions and do quality work.

Mike & Connie Routhier.

About 19 years ago they started adding musical instruments and accessories. You can buy sheet music, music stands, fine quality top-name instruments, strings, and reeds. Mike has implemented a program for "orphaned instruments" — instruments you might have lying around your home you don't use or need anymore. If you have an instrument you would like to sell, bring it by and they will sell it for you on consignment. Or, if you are looking for a good used instrument, stop by and check out the inventory of orphaned instruments, such as guitars, amps, and orchestral instruments. They carry Luna guitars and the Peavey line of guitars and amps.

In their showroom you'll find an assortment of guitars, Zoom pedals, accessories, and Ernie Ball strings. They can also order Yamaha accessories.

Northeast TV opened its doors on February 1, 1980, and have been offering quality service and fair prices ever since. They believe satisfaction and full disclosure before the sale are vital to customer satisfaction. Come on by and see what Connie and Mike have to offer. There is plenty of free parking at their convenient location.

Oasis Pet Resort

The Oasis Pet Resort is a fully inclusive pet resort that offers a unique and comfortable experience for pets and their owners.

Owner Andre Cabana has been in the business for 40 years as of this year. Andy started the business with a 1,000 square foot kennel in 1976, but soon outgrew it. Andy then opened a redesigned and newly constructed 7,500 square foot state-of-the-art boarding kennel. It offers the comforts of uncrowded, personal space and year-round temperature control. The entire facility maintains radiant floor heat. Canine accommodations include spacious pens measuring six feet long by up to six feet wide, depending on the occupant's size. The pens promote a doggy sense of freedom because each one is connected to its own completely enclosed, 12-foot-long outer run. Andy also takes the dogs out for daily walks and exercise.

The cattery includes soothing music and the same standards for comfort and cleanliness. Exercise opportunities are also available in the form of out-of-pen playtime and, in appropriate weather, outings into the outdoor cat gazebo.

Oasis offers overnight kennel boarding for cats and dogs; a doggy day care service including exercise, play and socialization activities. Andy has been grooming for 40 years. Oasis Pet Resort prides itself on being the resort for pets.

The Oasis has Lupine gear for cats and dogs, along with quality dog food. Come and see why dogs pull their owners to the kennel upon return arrivals. After 40 years, Andy knows about cats and dogs.

Pure Energy Massage

Massage therapy is a therapeutic art that unwinds muscle, tendon, and ligament tension caused by stress, injury, and overuse. By cultivating the health of the body and creating a relaxing space, the body is able to find equilibrium.

Massage effectively reduces discomfort associated with acute and chronic pain, it aides in the surgical process, and it speeds recovery after surgery. It improves body system functions, helps pregnant mothers feel comfortable, and reduces labor time.

Pure Energy Massage offers deep tissue, hot stone, Thai, and Reiki therapies. Deep tissue is a muscle based therapy that targets trigger points to release bound, locked tissue to reduce pain and increase mobility.

In hot stone therapy, warm stones are used to massage tissues and get deeper into the layers of restriction.

Thai therapy is a clothed treatment where passive stretches and compression are applied to release the body from pain and postural habits that create injury.

Reiki is an energy based therapy that creates a self-healing environment within the body. It helps the client move through mental processes to break out of negative patterns.

Yoga is the ancient practice of using postures that help with ailment in all body systems. The muscle strengthening allows the body to reprogram from postural weakness while stretching releases bound muscles. Quiet meditation connects us with our lives and our bodies so we can move into awareness that aides in health.

The UPS Store 6677

"Let me start off by telling you a little about myself. My name is Michael Desautels, and I have been a business owner in Orleans County for over 20 years. My past and present business adventures are Desautels Foundations, Jay Quick Stop, Advance Paintball, Desautels Snow Plowing, and also The UPS Store #6677. I am on the local school board and have coached kids' baseball for years. I opened The UPS Store here in Newport in September 2015 because I could see there was a need to serve our community. We have more to offer at The UPS Store than just shipping. We can make copies, banners, collages, booklets, and we have mailboxes which are considered a physical address, not a P.O. Box. We have a graphic designer who works on-site three days a week, and we can create business cards, logos, postcards from scratch (or bring your own). Our staff here is very friendly, kind, and knowledgeable. If you are looking to ship, we can meet those needs. Also, you can bring your item in boxed or we can box it for you. We are the only one in the area that can offer a pack and ship guarantee through UPS, and we also get the lowest possible rate with our contract, so if your item is packed by us and it is damaged, you are guaranteed a refund on your item. Come into The UPS Store and see how we can help you."

Once upon a time, there was this girl and a guy. They got married and before they were about to have kids, the husband wanted to buy the pub down the road. She, having been in the business of bartending and waitressing said no. The choice to be married and raise a family outweighed the desire to be business owners. Years went by, and the couple had and raised two beautiful daughters. Once again, after years of the girl working at one particular pub for 15 years, the question to purchase came up again. This time, the guy and the girl thought maybe now is the time, so they asked their two beautiful daughters what they thought. And that's where our story for The Gap Pub and Grill begins!

We are a small pub located up the road from the North Beach of Willoughby Lake in Westmore. We are a friendly and casual place to go and have a drink and some pub food. We encourage you to come and be a part of our story and make it a happily-ever-after ending.

In 1967 Walt and Joyce Jenness opened Walt's Sales & Service on Main Street in Derby, a business devoted to the sales and service of lawn mowers, garden tractors, four-wheelers, chainsaws, and snow machines. Today, 49 years later, Walt's Sales & Service is a thriving family business.

Front L-R: Alta & Ed Jenness. Back: Scott & Chris Jenness, Eric Smith, Robert Bean, and Tim Jenness.

Zephyr Meadows Real Estate

Laurie Godin-Dannat at Zephyr Meadows Real Estate, LLC, in Lowell has been licensed since 1983. She's a one-woman office, and that allows her to give her full personal attention to every client she serves.

She's dedicated to her work, which is the sale of residential and vacation homes, land, and camps. She has a fresh new office and does continuous mobile advertising to keep the seller's property in constant view of potential buyers.

And those buyers can expect a respectful, stress-free, even fun and exciting experience as they go about making what will probably be the biggest investment of their lives.

Ms. Godin-Dannat got into real estate because she was already familiar with the construction field. She was excited about helping people realize their dream of owning the best home for them. It's gratifying, she says, to match up the right property with the right person.
